

I am writing in regards to the efforts to limit XM radio's ability to broadcast the weather and traffic. Since I have subscribed to XM radio I rarely use the FM radio, the appeal of no commercials is just to great. I depend on the weather and traffic updates i receive from XM radio. I am asking that you do the right thing and continue to allow XM radio to broadcast the weather and traffic, to do otherwise would be a great disservice to those that pay for the service and pay the taxes that make your organization work.
